

INFORMATION & APPLICATION

A COMPREHENSIVE VOCATIONAL COURSE

Active since 2003, our course is designed to give an all-around training in Circus Arts. It includes intense practice of the main Circus disciplines, Acting, modern Dance, and personnel project development. We follow the guidelines and actively participate in both the Swiss Federation of circus Schools and the European Federation of Professional Circus Schools (FEDEC).

FIVE MAIN GOALS

- 1) Achieve a high level of technical and artistic skills in one or two chosen disciplines.
- 2) Define and develop personal artistic competencies through various group/individual projects
- 3) Develop adequate teaching skills as Circus Arts trainers for 3 hours per week.
- 4) Develop a complete personal project that will evolve into a full Circus Act.
- 5) Develop the technical/artistic abilities needed to EITHER integrate the job market as Circus Artists or as teachers in Circus Arts, OR to prepare for entrance into higher international Diploma Schools.

OUR PROGRAM

This course aims at acquiring an all-around training as a Circus Artist. It covers the main Circus disciplines, Circus Arts teaching techniques, Acting, Modern Dance, Project development techniques, and finally, a personalized teaching in a chosen discipline, according to the individual project and needs of each student. The artistic dimension is present during the entire course, and there are several opportunities for public performances throughout each year. Workshops with Circus Arts professionals or external performing opportunities will be scheduled whenever possible, and students will be designing and creating 2 annual shows as group projects, in December and June. The end of year show in June should not only integrate all acquired physical and artistic skills, but also develop and clarify their individual artistic approach. At the end of the course, students obtain a School Certificate.

- Candidates will teach Circus Arts to junior students of the school for 3 hours/week as part of their training.
- Any additional teaching beyond 3 hours to external groups will be paid according to current rates or deducted from fees.

Our teachers are all qualified Circus or Performing Arts professionals, and benefit from regular continuing education. External workshops are organized with other Living Arts professionals whenever possible.
